MINAGRI
Kigali, Rwanda

Subject: Application for Professional Internship

Dear Hiring Team,

I am writing to express my interest in the **Professional Internship** at **MINAGRI**. I am a final-year **Computer and Software Engineering** student at the **University of Rwanda**, with hands-on experience in software development and digital solutions that have meaningful societal impact.

In my career, I have contributed to two major projects: **Ikiraro Platform** a collaborative intelligence platform that empowers farmers, agro-dealers, researchers, and policymakers with actionable agricultural data to improve productivity, market access, and decision-making, and **Kwubaka Platform** developed during my internship at **MININFRA**, this platform streamlines land license and construction permit processes, improving efficiency and transparency for government services.

These experiences have strengthened my expertise in **full-stack development, database management, cloud-based workflows, and system deployment**, while giving me practical insights into creating digital solutions for public service improvement.

I am eager to contribute my skills and innovative mindset to MINAGRI, supporting digital initiatives that enhance Rwanda's agricultural development. I am confident that my technical background and experience in impactful projects align with your mission.

Thank you for your time and consideration. I would welcome the opportunity to contribute to your team and discuss how I can support your initiatives.

Yours sincerely,
Niyonkuru Olivier
